BRINGING WELLNESS TO LIFE

Welcome to All Well-Being Services! At All Well-Being Services (AWBS), we are committed to improving the lives of the people we serve. We provide a variety of therapeutic, prevention, and vocational experiences to adults, children and their families. At AWBS we are committed to helping people by offering them quality health and human services.

OUR MISSION

To meet the needs of individuals, families, and communities by providing integrated health services which foster well-being and self-sufficiency.

Mind Your Mental Health

November is National Family Caregivers Month

This is a time to recognize and celebrate those who lovingly give baths, clean houses, shop for and comfort loved ones who are elderly or ill. Providing care is a supremely challenging role, and caregivers deserve our support and praise. If you're a caregiver:

- **Acknowledge and be proud of how much you do.** There's no such thing as a perfect caregiver, so just do your best to get through each day.
- **Take breaks.** Arranging for respite care services (via skilled caregiving coverage in-home or at a center) will give you much-needed time off.
- **Maintain good diet, sleep and exercise habits.** Make sure to eat balanced meals. Try not to give in to stress eating. Also, get enough sleep; strive for 7–8 hours per night.
- **Talk with others about your challenges.** A caregiving support group is a great way to share information, support and encouragement.

Visit MagellanHealthcare.com/about/bh-resources/mymh or call your program for confidential mental health resources.
