Kristie King Named Association Executive

The Board of Directors of the Southeast Michigan Senior Regional Collaborative (SRC) is proud to announce our new Association Executive, Kristie King, effective November 5, 2018. We are very excited to have Kristie on board!

Kristie has two degrees from Wayne State University, including a Master's in Social Work. She most recently served as Division Director for Macomb Community Action's Office of Senior Services, after spending nearly 10 years in various positions with the National Kidney Foundation of Michigan, including Director of Health Initiatives. She brings to the SRC not only her education and experience; but also a commitment to service, to the community, and to older adults, along with a fresh perspective, new energy, and a deep dedication to the mission of the Senior Regional Collaborative.

Upon accepting the appointment, King said "I am pleased to be on board with the Senior Regional Collaborative and excited to be part of an organization so deeply committed to impacting the lives of older adults in Southeast Michigan. The SRC's current innovative thought leadership will be key to our future success and I look forward to engaging each of you. "

Kristie will be introduced to the SRC membership and community members at the upcoming SRC conference, November 8, 2018. We are looking forward to working with her and hope to see everyone November 8, 2018 at The SRC Annual Conference, *It Takes A Village: Senior Edition*, to be held at Greater Grace Temple in Detroit, MI!

If you would like more information about this appointment or the SRC Conference, please contact Wanda Burke at 313-757-5233 or wburke@miseniors.org
